Coriolis™ has plenty of style. It has a sleek design, only the necessary features, and solid operation - a real pleasure to fish. In fact, the Coriolis™ and Citica™ are very similar. The differences between them is color and the anti-reverse. Coriolis™ has a standard dog and pawl anti-reverse system instead of Citica's SuperStopper™.

Why would we make two similar reels? We feel both these reels appeal to a large number of people. All want a modern, quality reel, but some are more sensitive to price. With the Coriolis they get quality and style at a very good price.
